OS & Tools	Windows 10/11, Linux (basic), MS Office 365, ServiceNow, Ticketing Systems
Soft Skills	Problem Solving, Communication, Team Collaboration, Documentation

PROFESSIONAL EXPERIENCE

System Support Executive

Mindbridge | Lahore, Pakistan | January 2024 – Present

- Provide Tier-1 and Tier-2 technical support to 200+ internal users, resolving hardware, software, and network-related incidents within defined SLA timeframes
- Administer and maintain Active Directory user accounts, group policies, permissions, and organizational units for seamless access control
- Monitor IT infrastructure performance using system monitoring tools, proactively identifying and resolving issues before impacting operations
- Execute software deployments, OS updates, and patch management across all endpoints to ensure system security and compliance
- Document all incidents, resolutions, and configurations in the ticketing system to maintain an accurate IT knowledge base
- Coordinate with vendors and third-party service providers for hardware procurement, warranty claims, and equipment repairs
- Train and onboard new employees on IT systems, tools, and company IT policies

IT Support Engineer

Abacus Consulting | Lahore, Pakistan | *March 2023 – December 2023*

- Delivered comprehensive IT helpdesk support to clients and internal staff, managing 30+ support tickets daily with a 95% first-call resolution rate
- Configured and managed Active Directory accounts, mailboxes (Microsoft Exchange/Office 365), and access permissions for new and existing employees
- Diagnosed and resolved complex hardware failures including workstations, printers, and peripherals — reducing average resolution time by 25%
- Installed, configured, and maintained enterprise software applications across Windows environments ensuring compatibility and security
- Performed network troubleshooting including connectivity issues, IP conflicts, firewall rules, and VPN access problems
- Maintained detailed incident logs and IT asset inventory, contributing to accurate record-keeping and audit readiness
- Supported cybersecurity protocols by enforcing password policies, antivirus management, and user awareness practices

Data Scientist

Mindbridge | Lahore, Pakistan | *June 2022 – February 2023*

- Collected, cleaned, and analyzed large structured and unstructured datasets to generate actionable business insights for management
- Built automated data reports and interactive dashboards using Excel and data visualization tools, improving reporting efficiency by 40%
- Identified data trends and anomalies to support IT infrastructure planning and resource allocation decisions
- Collaborated with IT and operations teams to align data findings with system performance improvements
- Documented data pipelines, analysis methodologies, and findings in clear technical reports for non-technical stakeholders

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Virtual University of Pakistan | Lahore, Pakistan | *2021*

- Coursework: Data Structures, Algorithms, Database Systems, Computer Networks, Operating Systems, Software Engineering

Intermediate in Computer Science (ICS)

BISE Lahore | Lahore, Pakistan | *2017*

PROJECTS

KID ZONE — E-Commerce Toy Shop Platform | *PHP, Java, C++*

- Designed and developed a fully functional e-commerce web platform for a toy retail business using PHP as the core backend language
- Implemented product catalog management, shopping cart, user authentication, and order processing modules
- Integrated Java and C++ components for backend data processing and performance optimization
- Applied software development best practices including modular design, testing, and documentation
